

PROCEEDINGS

Seventeenth Annual Meeting

AMERICAN SOCIETY FOR SURFACE MINING AND RECLAMATION

A NEW ERA OF LAND RECLAMATION

June 11 -15, 2000 - Tampa, Florida

Editors:

W. Lee Daniels and Steven G. Richardson

**Department of Crop and Soil Environmental Sciences
Virginia Tech, Blacksburg, VA, 24061-0404**

And

**Florida Institute of Phosphate Research
1855 West Main Street, Bartow, FL 33830**

Coordinator:

Sue Brown, CSES Dept., Virginia Tech

This volume contains presentation papers and abstracts from the 2000 Annual Meeting of the American Society for Surface Mining and Reclamation (ASSMR) held June 11-15, 2000, in Tampa. Paper presentation here does not preclude authors from pursuing publication in other outlets. These Proceedings should be cited as:

Daniels, W.L., and S.G. Richardson (Eds.). 2000. *Proceedings, 2000 Annual Meeting of the American Society for Surface Mining and Reclamation, Tampa, FL, June 11-15, 2000.* Amer. Soc. Surf. Mining Rec., 3134 Montavesta Rd., Lexington, KY.

Sponsors of the 17th Annual Meeting of ASSMR

We appreciate the generous support of the following sponsors:

The Florida Institute of Phosphate Research

**Virginia Polytechnic Institute and State University
Dept. of Crop and Soil Environmental Sciences**

USDI - Office of Surface Mining

2000 Annual Meeting Program Committee

Local Arrangements and Exhibits

Dr. Steven G. Richardson
Conference Chairman
Florida Institute of Phosphate Research
855 West Main Street
Bartow, FL 33830
Phone: (863) 534-7160
Fax: (863) 534-7165
E-mail: srichard@helios.acomp.usf.edu

Proceedings and Paper Review

Dr. W. Lee Daniels and Ms. Sue Brown
Conference Co-chairman/Proceedings Coordinator
Dept. of Crop and Soil Env. Sciences
Virginia Tech, CSES
Blacksburg, VA 24061-0404
Phone: (540) 231-7175 or -5741; wdaniels@vt.edu
Fax: (540) 231-7630; suebrown@vt.edu

Membership Services and Pre-Registration

Dr. Richard I. Barnhisel
ASSMR Executive Secretary
3134 Montavesta Road
Lexington, KY 40502-3548
Phone/Fax: (877) 701-2086 toll free
or (606) 335-6529
E-mail: rbarnhis@ca.uky.edu
Web: www.ca.uky.edu/assmr

Table of Contents

ASSMR 2000 TECHNICAL PAPERS AND POSTERS

Session 1: Native Vegetation Establishment and Management

Developing Seed Sources of Florida Native Upland Grass Species	1
S.L. Pfaff and C. Maura, Jr.. USDA-NRCS, Brooksville, FL	
Seeding Two Native Grass Species on Reclaimed Phosphate Minedlands.....	6
S.L. Pfaff and M.A. Gonter. USDA-NRCS, Brooksville, FL	
Testing the Efficacy of Seed and Plant Transfer by Topsoil Augmentation on Reclaimed Phosphate-Mined Uplands	13
Nancy J. Bissett, Robert A. Garren, Vimala D. Nair, Kenneth M. Portier, Donald G. Graetz, and Debra S. Segal., The Natives, Inc., Davenport, FL	
Soil Conditions and Plant Establishment on Reclaimed Phosphate-Mined Uplands.....	35
Vimala D. Nair, Nancy J. Bissett, Kenneth M. Portier, Donald A. Graetz, Debra S. Segal, and Robert A. Garren. University of Florida, Gainesville, FL	
Responses of Two Native and Two Non-Native Grasses to Imazapic Herbicide on Phosphate Mined Lands in Florida.....	49
R.A. Kluson, S.G. Richardson, D.B. Shibles, and D.B. Corley. Florida Institute of Phosphate Research, Bartow, FL	
Bay Swamp Reclamation Techniques-Florida Phosphate Mines	58
Fred Gaines, Mike Cotter, and Carlos Frey. IMC-Agrico Company, Lithia, FL	

Session 2: Mine Water Quality and Drainage

Problems Associated with Selenium Leaching from Waste Shale	71
George F. Vance. University of Wyoming, Laramie, WY	
Ecotoxicological Impacts of Acid Mine Drainage in Streams of Increasing Order in the Powell River Watershed, Virginia.....	83
D.J. Soucek, D.S. Cherry, R.J. Currie, H.A. Latimer, and C.E. Zipper. Virginia Tech, Blacksburg, VA	
Identification and Analysis of Acid Mine Drainage Sources in the Black Fork Sub-Watershed.....	91
Julie A. Kocsis and Ben J. Stuart. Ohio University, Athens, OH	
Changes in Water Quality in Deckers Creek from 1974 to 1999.....	98
J. Stewart, J. Skousen, and J. Gorman. West Virginia University, Morgantown, WV	
Bioremediation of Groundwater Contaminated by Phosphate Mining and Extraction: A New Approach Using Indigenous Sulfate-Reducing Bacteria	109
Jill M. Whitmer and James A. Saunders. University of Kansas, Kansas Geological Survey, Lawrence, KS.	

Session 3: Mine-Induced Ground Movements and Stabilization

Extraction Ratio in Thin Seams Assuring No Surface Subsidence	116
Kot F. v. Unrug, Richard Sweigard, and Mutombo Nombe. University of Kentucky, Lexington, KY	
Protection Measures Against Mine Subsidence Taken at a Building Site	126
Gennaro G. Marino and Mohamed Gamal. MEA Inc., Urbana, IL	
Investigation of Surface Effects from Mine Subsidence in Mountainous Terrain	137
Clyde DeRossett. Kentucky Dept. for Surface Mining Reclamation and Enforcement, Prestonsburg, KY	
Comparison Between Predicted and Observed Subsidence Along a Buried Concrete Waterline Mined Under by a Longwall Panel	144
Kewal K. Kohli and Lois Uranowski. Office of Surface Mining, Pittsburgh, PA	
Longwall Mining Under a Public Lake and Wildlife Refuge: Planning for Subsidence Impacts	148
Daniel Barkley. Illinois Dept. of Natural Resources, Springfield, IL	

Poster Session

The Use of Coal Combustion By-Products to Remediate Phosphate Wastes	159
Ann G. Kim, Michael Dahlberg, and George Kazonich. Federal Energy Technology Center, Pittsburgh, PA	
Investigation of Biosolids and Limestone in a Pilot-Scale Vertical Flow Passive Treatment System	160
Timothy P. Danehy, Michael Enright, Charles Cooper, James Plesakov, and Margaret Dunn. BioMost, Inc., Rochester, NY	
Continuing Effectiveness of a Vertical Flow System in the Treatment of Dissolved Aluminum-Bearing Mine Drainage	161
Margaret H. Dunn, James Plesakov, Timothy VanDyke, Dean DeNicola, Michael Stapleton, George Watzlaf, Charles D. Cooper, Timothy Danehy, and Robert Hedin. Stream Restoration, Inc., Cranberry Twp., NY	
Integrative Bioassessment Techniques to Predict Ecotoxicological Impairment by Acid Mine Drainage	162
T. S. Schmidt, D.J. Soucek, D.S. Cherry, R.J. Currie, H.A. Latimer, and G.C. Trent. Virginia Tech, Blacksburg, VA	
Plant Regeneration of Creeping Bluestem (<i>Schizachyrium scoparium</i> (Michx.) Nash Var. <i>Stoloniferum</i> (Nash) J. Wipff) via Somatic Embryogenesis	170
Taraknath Chakravarty, Jeffrey G. Norcini, James H. Aldrich, and Robert S. Kalmbacher. University of Florida, Monticello, FL	
The Relationship Between Compaction and Saturated Hydraulic Conductivity of Post-Mine Soils in East Texas	171
A.K. Barth and L.R. Hossner. Texas A&M University, College Station, TX	

Kenneth L. Schellie, A Landscape Architectural Reclamation Pioneer.....	172
J.B. Burley and A.M. Bauer. Michigan State University, East Lansing, MI	
The Design of an Evapotranspiration Landfill Cover for a Semiarid Site.....	178
Patrick E. McGuire and John A. England. Earth Tech, Sheboygan, WI	
Influence of Flue Gas Desulfurization Material (FGD) on Water Quality in an Abandoned Deep Mine.....	188
Mikko O. Lamminen, James Wood, Harold W. Walker, and Yu-Ping Chin. Ohio State University, Columbus, OH	
Prediction of Height of <i>Taxodium Distichum</i> Trees on Different-Aged Phosphate-Mined Wetland Reclamation Sites	189
Peter M. Wallace, Michael Batts, and John Wester. Ecosystem Research Corp., Gainesville, FL	
Prescribed Fire and Herbicide Modify Soil Processes During Barrens Ecosystem Restoration	190
Chuck Rhoades, Thomas Barnes, and Brian Washburn. University of Kentucky, Lexington, KY	

Session 4: Reforestation of Mined Lands

Evaluating Reclamation Success for Slow Growing Forest Ecosystems	191
A.M. Wagner and J.T. Harrington. Molycorp, Inc., Questa, NM	
Forest Restoration at Dogleg Branch on Phosphate-Mined and Reclaimed Land, Florida	197
Andre F. Clewell, James P. Kelly, and Charles L. Coultas. A.F. Clewell, Inc., Quincy, FL	
Forest Productivity and Woody Species Diversity on Pre-SMCRA Mined Land.....	205
J.A. Rodrigue and J.A. Burger. Virginia Tech, Blacksburg, VA	
Performance of Three Pine Species After Eleven Years on Pre- and Post-Law Mined Sites in Virginia.....	226
J.A. Burger, J.L. Torbert, S.S. Schoenholtz, and R.E. Kreh. Virginia Tech, Blacksburg, VA	
The U.S.D.I. Office of Surface Mining (OSM) Initiatives Related to Reforestation of Mined Land	231
Kimery C. Vories. USDI OSM, Alton, IL	

Session 5: Treatment of Mine Drainage

Evaluation of Two Open Limestone Channels for Treating Acid Mine Drainage.....	236
Arthur W. Rose and Fara J. Lourenso. Pennsylvania State University, University Park, PA	
The Effectiveness of Utilizing Passive Treatment Systems for Acidic Leachate Discharges in Western Maryland.....	248
A.M. Brookens, T.W. Schmidt, and W.L. Branch. Skelly and Loy, Inc., Harrisburg, PA	
Long-Term Performance of Alkalinity-Producing Passive Systems for the Treatment of Mine Drainage	262
George R. Watzlaf, Karl T. Schroeder, and Candace Kairies. U.S. Dept. of Energy, Pittsburgh, PA	

Bench-Scale Passive Treatment of Heavy Metals, Smolnik Mine, Slovakia	275
James J. Gusek, Thomas R. Wildeman, and Vladimir Jaško. Knight Piésold and Co., Denver, CO	
The Development of Passive Minewater Treatment in Neath and Port Talbot, South Wales	283
C.M. Ranson, N. Reynolds, and A.C. Smith. Environment & Consumer Serv. Directorate, Neath, United Kingdom	
An Update on the Winding Ridge Demonstration Project for the Beneficial Use of CCBS to Reduce Acid Formation in an Abandoned Underground Mine	293
Leonard Rafalko and Paul Petzrick. Environmental Resources Management, Annapolis, MD	

Session 6: Computer Applications

Enhanced Computer Software Applications for Mining and Reclamation	310
William L. Joseph. Office of Surface Mining, Alton, IL	
Computer Applications for Hydrologic Analysis in Mining and Reclamation	317
Paul T. Behum, Jr. and Stephen C. Parsons. Office of Surface Mining, Alton, IL	
The Illinois Experience with Electronic Permitting	330
Dean R. Spindler and Ray Druhot. Illinois Dept. of Natural Resources, Springfield, IL	
Application of Global Positioning System to Bond Forfeiture Reclamation Projects	334
Robert A. Welsh, Jr. U.S. Office of Surface Mining, Denver, CO	
The Use of GPS and GIS in Documenting Subsidence Impacts from Longwall Mining	340
Lois Uranowski and Thomas Mastroiocco. Office of Surf. Mining, Pittsburgh, PA	

Session 7: Ecosystem and Wildlife Habitat Restoration/Reclamation

An Evaluative Methodology for Reclamation Achievement & Techniques	345
R.N. Humphries. Humphries Rowell Associates, Loughborough, United Kingdom	
Restoring an Ecological and Hydrological System at an Open Pit Copper Mine in Northern Wisconsin	353
Thomas C. Hunt. University of Wisconsin-Platteville, Platteville, WI	
The Role of Mining Companies in Mammal Conservation A Western Australian Perspective	367
Stuart D. Anstee. Hamersley Iron Pty Ltd., Perth, Western Australia	
Biodiversity and Mineral Extraction in the United Kingdom: A Biological Action Plan Context	376
R.N. Humphries, P.J. Horton, and R. Foster. Humphries Rowell Associates, Loughborough, United Kingdom	
Assessing Wildlife Usage of Reclaimed Phosphate-Mined Lands and Unmined Lands	386
Earl D. McCoy, Robert Kluson, Cherie Keller, and Henry R. Mushinsky. University of South Florida, Tampa, FL	

Vertebrate Utilization of Reclaimed Habitat on Phosphate Mined Lands in Florida: A Research Synopsis and Habitat Design Recommendations	397
J.H. Kiefer. CF Industries, Inc., Wauchula, FL	

Session 8: Treatment Wetlands

Alkalinity Generation and Metals Retention in Vertical-Flow Treatment Wetlands	412
Robert W. Nairn, Matthew N. Mercer, and Stephanie A. Lipe. The University of Oklahoma, Norman, OK	
Enhancing Phosphorus Sorption Capacity with Treatment Wetland Iron Oxyhydroxides	421
C.J. Evenson and R.W. Nairn. University of Oklahoma, Norman, OK	
Preliminary Investigation of Influent Distribution in a Vertical Flow System	427
Darcy Peart and Charles Cooper. Stream Restoration Inc., Cranberry TWP, PA	
Rehabilitating Mine Tailings Water Using Constructed Wetlands	438
Aisling D. O'Sullivan, Declan A. Murray, and Marinus L. Otte. University College Dublin, Belfield, Dublin, Republic of Ireland	
Evaluation of a Constructed Wetland for Treatment of Acid Mine Drainage in Southeastern Ohio	446
Julie A. Kocsis and Ben J. Stuart. Ohio University, Athens, OH	
Factors Affecting Performance of Successive Alkalinity-Producing Systems	451
Christopher R. Jage, Carl E. Zipper, and Albert C. Hendricks. Virginia Tech, Blacksburg, VA	

Session 9: Planning, Design, and Regulatory Issues

Information Technology Tools for Estimating Costs of Surface Mining Reclamation	459
M.E. Reid and J.R. Craynon. BTG Inc., Niceville, FL	
Integrating the Design Process into Reclamation Planning and Design	467
Jon Bryan Burley. Michigan State University, East Lansing, MI	
Erosion Control and Use of Stream Restoration Principles in the Design of Channels and Diversions	472
Kenneth L. Myers. The MINES Group, Inc., Reno, NV	
Achieving Approximate Original Contour in Mountain Top Mining	487
Michael J. Superfesky. Office of Surface Mining, Pittsburgh, PA	
Current Technologies to Resolve Blasting Related Citizen Complaints	493
Kenneth K. Eltschlager. Office of Surface Mining, Pittsburgh, PA	
Innovative Uses of Mined Lands. Case Study of the Southeast County Landfill Hillsborough County, Florida	501
Larry E. Ruiz and Sheila Carpenter-van Dijk. SCS Engineers, Tampa, FL	

Session 10: Mine Soil Characterization and Development

Changes in Morphological Properties of a Prime Land Soil Reclaimed in 1979	511
R.I. Barnhisel and R.B. Gray. University of Kentucky, Lexington, KY	
Soil Fertility Assessment from Initial Chemical Analyses of Copper Mine Tailings, Ducktown, Tennessee	520
J.L. Branson, T.E. Cook, J.T. Ammons, and V.C. Stevens. University of Tennessee, Knoxville, TN	
Copper Mine Tailings Reclamation Near Ducktown, Tennessee	529
T.E. Cook, J.T. Ammons, J.L. Branson, D. Walker, V.C. Stevens, and D.J. Inman. University of Tennessee, Knoxville, TN	
Chemical and Physical Characteristics of Anthropogenic Hydric Soils on Mine Tailings in the Copper Basin, Tennessee	537
V.C. Stevens, J.T. Ammons, J.L. Branson, T.E. Cook, and D.J. Inman. University of Tennessee, Knoxville, TN	
Soil Development on a Mountaintop Removal Mine in Southern West Virginia	546
K.A. Thomas, J.C. Sencindiver, J.G. Skousen, and J.M. Gorman. West Virginia University, Morgantown, WV	
Physical and Chemical Characteristics of Small Coal Refuse Piles	557
D.L. Brant, S. Sybolt, P.F. Ziemkiewicz, and D. Growitz. WVU - NRCCE Analytical Lab, Morgantown, WV	
Selected Chemical Characterization of Five Minesoil Profiles in Australia. Implications for Future Land Use	568
J.T. Ammons, R.R.P. Noble, J.L. Branson, and D.S. Walker. University of Tennessee, Knoxville, TN	

Session 11: Wetland Creation and Function

Establishment of Vegetation in Constructed Wetlands Using Biosolids and Quarry Fines	574
T. P. Danchy, R.L. Zick, F.J. Brenner, J.G. Chmielewski, M.H. Dunn, and C.D. Cooper. BioMost, Inc., Cranberry Twp, PA	
Denitrification Rates and Associated Soil Characteristics of Wetlands Created on Oxidized and Reduced Mine Spoil in East Texas	584
Daniel Johns, Hans Williams, and Kenneth Farrish. Stephen F. Austin State University, Nacogdoches, TX	
Anglogold H-Pit Mitigation Wetlands: Establishment & Successional Development on a Xeric Borrow Area	591
L. Gionet, W.R. Erickson, and S.R. Viert. Anglogold, Elko, NV	

Session 12: Soil Amendments and Productivity

Vadose Zone Water and Crop Response to Poultry Litter Application on Reclaimed Surface Mine Land	611
C. Ruiz-Diego, M. Collins, D.C. Ditsch, M.S. Coyne, and J.H. Grove. University of Kentucky, Lexington, KY	

Feasibility Study of Swine Manure Management on Reclaimed Surface Mine Lands	620
Ernest F. Bazen, Ronald A. Fleming, and Stephen R. Workman. University of Kentucky, Lexington, KY	
Properties of Fly Ash Used as a Topsoil Substitute in Mineland Reclamation	627
J.M. Gorman, D.K. Bhumbla, and J.C. Sencindiver. West Virginia University, Morgantown, WV	
High Value Crop Potential of Reclaimed Phosphatic Clay Soil	644
James A. Stricker. Univ. of Florida, Bartow, FL	
Opportunities for Reclamation of Mined Lands in Ohio Using Coal Combustion By- Products	655
Tarunjit S. Butalia and William E. Wolfe. Ohio State University, Columbus, OH	
Using Municipal Biosolids in Combination with Other Residuals to Restore a Vegetative Cover on Heavy Metal Mine Tailings	665
Sally L. Brown, Charles L. Henry, Harry Compton, Rufus L. Chaney, and Pamella DeVolder. University of Washington, Seattle, WA	
Limestone Quarry Mine Reclamation Project at Medusa Cement Company, A Case Study	671
Patricia Kay Arnold Harmon, John Bryan Burley, and Anthony Bauer. Scruggs and Hammond Inc., Columbus, OH	

Session 13: Hydrology

Hydrologic Characterization of Overburden Spoil Deposits: Warrick County, Southwestern Indiana	680
Greg A. Olyphant, Peter Schoephoester, and Denver Harper. Indiana Geological Survey, Bloomington, IN	
Mapping Hydrologically Significant Categories of Spoil Deposits Across Broad Areas for Purposes of Land-Use Management, Warrick County, Indiana	690
Denver Harper, Peter Schoephoester, and Greg A. Olyphant. Indiana Geological Survey, Bloomington, IN	
Parameter Optimization and Uncertainty Analysis of an Integrated Hydrologic Model	694
K. Trout, M. Stewart, M. Ross, and P. Tara. Univ. of South Florida, Tampa, FL	
The Use of Mined Phosphate Lands to Expand Regional Water-Resources Availability on the West Coast of Florida	700
Peter J. Schreuder and Steven G. Richardson. Schreuder, Inc., Tampa, FL	
Consolidation and Hydrology of Reclaimed Phosphatic Clay Settling Areas	710
Walter R. Reigner, Cornelis Winkler, III, and Mark A. Schwartz. BCI Engineers & Scientists, Inc., Lakeland, FL
