**Lexington, KY 40502**

## SPONSORS

Sponsorship of the 2003 Joint Conference of the 9<sup>th</sup> Billings Land Reclamation Symposium and the 20<sup>th</sup> American Society of Mining and Reclamation has been provided in the form of financial contributions or as labor-in-kind by the following entities:

Office of Surface Mining  
Reclamation Research Unit, Montana State University  
American Society of Mining and Reclamation  
University of Wyoming, Department of Renewable Resources  
USDA-ARS, High Plains Grasslands Research Station  
Montana Department of Environmental Quality  
United States Environmental Protection Agency  
Montana Bureau of Mines and Geology  
Wyoming Department of Environmental Quality

## ASMR 2002-2003 National Executive Committee<sup>1</sup>

Gary Wendt	President
George Vance	Past-President
Jeff Skousen	President-Elect (began term in December 2002)
Margaret Dunn	President-Elect (will begin term in June 2003)
David Chenoweth	Chairperson
Tim Richmond	Past-Chairperson
Robert Nairn	Chairperson-Elect (will begin term in June 2003)
James Burger	Chairperson
Denver Harper	Past-Chairperson
Gary Wade	Chairperson-Elect (will begin term in June 2003)
To be Selected	Technical Division Representative
Richard Barnhisel	Executive Secretary

## ASMR Technical Division Chairpersons

Ecology	Richard Vincent
Forestry & Wildlife	James Burger
Geotechnical Engineering	Vacant
International Tailings & Reclamation	Stuart Bengson and Timothy Richmond
Land Use Planning & Design	Susan Wessman
Soils & Overburden	Robert Darmody
Water Management	Robert Kleinmann and Jack Nawrot

---

<sup>1</sup> This structure is in transition as a result of the new by-laws adopted in fall of 2002.

## **VIEWING PROCEEDINGS PAPERS AND ABSTRACTS**

Each full paper, poster, or abstract is located on this CD in pdf format.

The pdf files are named using the first page number of each entry and the primary author's last name. This will be noticeable when viewing the files from the file directory rather than the two indices.

The first index that follows is arranged according to the order the papers were presented at the meetings. **Simply place the pointer on the page number in the left column and click the left button and the desired article will appear.** The second index that follows the meeting index is for the most part are in alphabetical order according to the primary authors name, but due to some differences between corresponding author and first author, there are some exceptions. Again, place the pointer on the page number and click the left mouse button.

**The entire proceedings are indexed to accommodate full text searching.** To locate a list of proceedings articles containing key works, just click on the index search icon above (the icon with binoculars over a sheet of text) and type in the word or words for which you would like to search. These words in the entire 1600 pages should become available in this search

## **ADDITIONAL PAPERS CONTAINED ON THIS CD INCLUDE THOSE ON DIVERSITY AND BIODIVERSITY**

**THESE PAPERS WERE ORIGINALLY GIVEN AT THE 18<sup>TH</sup> ANNUAL  
MEETINGS HELD IN ALBUQUERQUE, NEW MEXICO**

**THE INDEX FOLLOWS THE PAPERS PRESENTED AT THE BILLINGS  
CONFERENCE.**

<b>Title</b>	<b>Authors</b>	<b>Page</b>
--------------	----------------	-------------

### **Hydrology**

Evaluation of a Large Area Shallow Evaporation Basin (LASEB) in a Playa Environment for Final Heap Leach Drain-Down Disposal	C.R. Wessel, R.B. Valceschini, and S.A. Morrow	814
Integration of Surface Water Management With Mitigation of Ground Water Impacts at a Proposed Phosphate Mine Overburden Facility	B.W. Buck and B. Winegar	69
Implementation of EPA's New Western Alkaline Coal Mining Subcategory	J.P. Tinger and J.R. Galetovic	1266
Gillette Area Groundwater Monitoring Organization: What Have We Learned in 20+ Years?	M.W. Stearns	1229
Evaluation of Water Quality Conditions in Coal Mine Backfill in the Powder River Basin of Wyoming	R.N. Hoy, K. Muller Ogle, and M. Taylor	427
An Evaluation of Ground Water Conditions in the Colstrip Coal Deposit, Montana	K. Waren and A. McDannel	1407
Changes to Ground-Water Quality as a Result of Strip Mining in Colstrip, Montana	A. McDannel and K. Waren	794

### **Rocky Mountain Hazardous Substance Research Center Special Session**

Research Activities at the Rocky Mountain Regional Hazardous Substance Research Center	C.D. Shackelford	1131
Fate and Transport of Metal and Sediment in Surface Water	R. Rojas and P. Julien	1058
Seasonal Changes in the Characteristics of Suspended Sediment Metal Transport in a Mining-Impacted Stream	B.B. Harvey, J.F. Ranville, and P.E. Ross	353
Microbial Reduction of Uranium in Mine Leachate by Fermentative and Iron-Reducing Bacteria	J.B. Gillow, B.D. Honeyman, and J. Spear	410
Modeling Sulfate-Reducing Permeable Reactive Barriers for Treatment of Acid Mine Drainage	P.S. Hemsli, C.D. Shackelford, and L.A. Figueroa	367
Effect of Solid Phase Organic Substrate Characteristics on Sulfate Reducer Activity and Metal Removal in Passive Mine Drainage Treatment Systems	J. Seyler, L. Figueroa, D. Ahmann, T. Wildeman, and M. Robustelli	1112
Assessment of Microbial Activity in Anaerobic Columns Treating Synthetic Mine Drainage	M. Logan, D. Ahmann, and L. Figueroa	658
Development of a Simple Scheme to Determine the Chemical Toxicity of Mine Wastes	T.R. Wildeman, J.F. Ranville, J.Herron, and R.H. Robinson	1501

### **Soils and Overburden**

Amelioration of Degraded Mine Soil for Reclamation Purposes Using an Industrial Byproduct and an Organic Waste	W.F. Truter and N.F.G. Rethman	1277
The Effect of Organic Mulches on Crusting, Infiltration and Salinity in the Revegetation of a Saline-Sodic Coal Mine Spoil from Central Queensland, Australia	A.H. Grigg, G.J. Sheridan, A.B. Pearce, and D.R. Mulligan	292
A Preliminary Assessment of Remediated Sulfidic Waste Rock Using Terra B™	G. Maddocks	702
Capping and Revegetation of Gold Residues in the Eastern Jarrah Forest in the South-West of Western Australia	W. McGrath, R.Bell, D. Jasper, C. Hinz, I. Struthers, J. Eastham, and P. McNeil	513

## Soils and Overburden (continued)

Using Minesoil and Overburden Analyses to Locate a Highway in West Virginia	J.R. Jones, J.C. Sencindiver, and J.G. Skousen	533
Chemical and Physical Properties of Mineral Sands Mine Soils in Southeastern Virginia	W.L. Daniels, Z.W. Orndorff, and P.D. Schroeder	209
Classification of Minesoil Series as Noosols	A.D. Kosse	602

## Poster Session

Overview of the Railroad Bed Time-Critical Removal Action, Silver Bow Creek/Butte Area Superfund Site, Butte, Montana	R.R. Alexander	1
The Use of a Corn Grain Yield Monitor to Evaluate Soil Quality of Reclaimed Prime Farmland	R.I. Barnhisel	17
Horizontal Flow Limestone Bed (HFLB): An Effective and Valuable Passive Treatment System Component for Manganese Removal and Alkalinity Generation	C.F. Denholm, T.P. Danehy, M.H. Dunn, and S.L. Busler	228
SLAPPM Test: An Easy Method for a Simple Limestone Alkalinity Production Prediction and Monitoring Test for Vertical Flow Pond Type Systems	C.F. Denholm, T.P. Danehy, M.H. Dunn, and S.L. Busler	231
Chemistry of Stream Sediments and Water as Guides to Determine the Impacts of Abandoned Mines on the Upper Red River, Taos County, New Mexico	M.L. Jackson, V.T. McLemore, B.M. Walker, and G. Jones	511
Non-Agricultural C and P Values for RUSLE	Karpilo, R.D.	549
Relationship of Saltcedar (Tamarix Ramosissima) Age and Stand Structure to Soil Conditions in the Bighorn Basin, Wyoming	C.G. Ladenburger, D.J. Kazmer, A.L. Hild, S.D. Miller, and L.C. Munn	616
Use of Native Mycorrhizal Fungi to Enhance Establishment of Quaking Aspen on Smelter-Impacted Sites (Preliminary Report)	C. Mahony and C.L. Cripps	732
Natural Resource Damage Program: It's Role in Restoration in the Upper Clark Fork	G. Mullen	816
Surface Mine Reclamation Settings: Facilitating Landscape Planning, Design, and Management Education	P.E. Nieratko and J.B. Burley	900
Aggregate Mining and Wetland Banking	D.C. Schmitt, A.M. Bauer, and J.B. Burley	1099
Effects of Grazing on Diversity and Seasonal Balance of Reclaimed Grasslands in North Dakota	C.J. Trosen, D.R. Kirby, and D.J. Nilson	1267
Proposal for the Development of a Western States Land Reclamation Center	G.F. Vance	1327
Flushing of Metals From Reducing and Alkaline Producing Systems	G.R. Watzlaf, C.L. Kairies and K.T. Schroeder	1425
The Performance of Two Horizontal Limestone Beds for the Removal of Manganese	G.R. Watzlaf, C.L. Kairies and K.T. Schroeder	1426
Passive Treatment of Coal Mine Drainage	G.R. Watzlaf, K.T. Schroeder, and C.L. Kairies	1424

## Acid Mine Drainage

Case Studies of Limestone-Bed Passive Systems for Manganese Removal from Acid Mine Drainage	A.W. Rose, P.J. Shah, and B. Means	1059
Evaluation of Sludge Produced by Limestone Neutralization of AMD at the Friendship Hill National Historic Site	P.L. Sibrell and B.J. Watten	1151
Microbial Effects of Natural Phosphate Rock (NPR) Addition to Mining Wastes	M. Ueshima, M. Kalin, and D. Fortin	1294
Comparison of Bacteria Populations with Metal and Sulfate Concentrations in a Scale Model Vertical Flow Pond	F.J. Brenner, S. Busler, K. Kosick, C. Gardner, and C. Tippie	43
Chemical Analysis of Cores Obtained from a Vertical Flow Pond	F.J. Brenner, E. Kowacki, S. Busler, and C.D. Cooper	34
Changes in Discharge Water Quality in a Historic Hard Rock Mining Watershed	J.A. Coffey and R.W. Nairn	163
Ecological Assessment of Three Oklahoma Streams Impacted by Mine Drainage: Habitat and Water Quality	N.J. Iverson and R.W. Nairn	496
The Water Balance and Chemical Mass Loads at the Zortman and Landusky Mines, Montana	T.J. Osborne	918
Biological Treatment of Surface and Groundwater for Selenium and Nitrate	T. Maniatis and D.J. Adams	749
A Computer-Based Model for Estimating Mine Drainage Treatment Costs	B. Means, B. McKenzie, and T. Hilton	809

## Case Studies

Dry Creek Abandoned Mine Land Restoration Demonstration Project: A Cooperative Effort	M.W. Stearns	1216
Surface Mining and Reclamation of Abandoned Underground Mines	N.M. Frisbee	269
Characterization and Design of the Old Dominion Remedial Action Plan	A.J. Hardy, N.R. Lindstrom, E.L. Bingham, W.A. Fuller, and R.C. Krohn	329
Reclamation of the Block P Mill Site	J.E. Hunt, J.E. Carter, and T.W. Skoglund	448
Assessment and Closure Design of the Glengarry Adit, New World Mining District, Cooke City, MT	M.B. Marks, H. Bogert, A.R. Kirk, and M. Cormier	765
Phytostabilization Permanence Within Montana's Clark Fork River Basin Superfund Sites	F.F. Munshower, D.R. Neuman, and S.R. Jennings	817
Bio-engineered StreamBank Stabilization Using Wetland Sod on the Teton River: A Case Study	K.M. Salsbury	1080
Restoration of the Floodplain of the South Fork of the Coeur D'Alene River: A Case Study of Applied Restoration Theory	T.A. White, G.W. Rome, J.H. Rogers, B.K. Osterhaug, C.L. Grandinetti, and J. Stoupa	1427
Home on the Reclaimed Range - Can a Family Still Make a Living	R.S. Liedtke	617

## Coal Bed Methane

Effects of Surface Irrigation Water Quality and Water Table Position on the Ability of Selected Plant Species to Produce Biomass, Crude Protein, and Remove Sodium, Calcium and Magnesium From Shallow Groundwater	S.D. Phelps	947
Utilization of Coal Bed Methane Produced Water at the North Antelope Rochelle Mine, Campbell County, Wyoming	P.A. Murphree	844

## Reforestation

White Pine Growth and Yield on a Mined Site in Virginia: Response to Thinning and Pruning	J.A. Burger, W.E. Auch, R.G. Oderwald, and M. Eisenbies	96
Second Year Survival of Commercial Hardwoods on Reclaimed Minesoils in West Virginia	J. Gorman and J. Skousen	279
Tree Survival on a Mountaintop Surface Mine in West Virginia	J. King and J. Skousen	563
Disturbed Forestland Revegetation Effectiveness Monitoring-Results of 30 Years	L.K. Holzworth, H.E. Hunter, and S.R. Winslow	386

## Soils and Overburden

Containment of Spilled Petroleum in Soil Using Activated Coal	T.E. Wilson, D. Misra, W. Zhou, A. Dandekar, and N. D’Cunha	1517
Mechanical and Hydrological Properties of Two Ohio Mined Soils Twenty-Five Years After Reclamation	M.K. Shukla, R. Lal, J.F. Underwood, and M.H.Ebinger	1132
Accumulation of Organic Carbon in Reclaimed Surface Coal Mine Soils of Wyoming	P.D. Stahl, J.D. Anderson, L.J. Ingram, G.E. Schuman, and D.L. Mummey	1206
Short-Term Microbial Respiration as an Indicator of Soil Quality for Reclaimed Coal Mine Soils of Northeastern Wyoming	L.J. Ingram, G.E. Schuman, P.D. Stahl, and L.K. Spackman	462

## Wildlife

Mitigating Cutthroat Trout Habitat Losses Using Constructed Spawning Beds in a Wyoming Spring Creek	K.M. Salsbury	1079
Breeding Bird Survey of Reclaimed and Native Woodlands in North Dakota	D.R. Kirby, D.J. Eisinger, and D.J. Nilson	575
Use of Grassland Avian Communities to Monitor Reclamation Success on Surface Mine Lands	S.M. Rummel and F.J. Brenner	56
Habitat Modeling: Spatial Landscape Assessment at the Rigden Mine, Colorado	J.B. Burley	103
Lazy K Marsh: Four Years of Habitat Enhancement for Wetland-Dependent Wildlife at a Constructed Marsh in Teton Valley	J.M. Klausmann	587

## Evaluation Tools and Statistics

Application of the Land Reclamation Evaluation System to Disturbed Lands at the Anaconda Smelter NPL Site	S.R. Jennings, R.B. Rennick, and D.R. Neuman	532
Butte Reclamation Evaluation System (BRES)	P.S. Blicher, M.K. Reeves, D.T. Shanight, M.W. Hills, and D.R. Neuman	18
Development of a Riparian Evaluation System (RIPES) for the Clark Fork River Superfund Site	P.L. Hansen, D.R. Neuman, S.R. Jennings, and W.H. Thompson	325
Using Direct Environmental Ordination to Match Plant Species to Fluvial Riparian Sites - Part 1: Introduction and Methods	T.J. Keck and R.A. Prodggers	1016
Using Direct Environmental Ordination to Match Plant Species to Fluvial Riparian Sites - Part 2: Results	R.A. Prodggers and T.J. Keck	1027

## Industrial Innovative Reclamation Practices Special Session

Postmining Water Resource Development - Dave Johnston Mine	C. Skilbred	1170
From Dragline to Fishing Line - Developing a Wildlife Management Area and Fishery at a Large Surface Coal Mine in the Semiarid West	J.D. Friedlander	267
Reclamation of Porcupine Creek Riparian and Wetland Habitats	B.W. Hansen and P. Murphree	326
Weed Exclusion/Eradication Demonstration	J. Inkret and B. Jensen	473
Woodland Reclamation in North Dakota: A 20-Year Perspective	D.J. Nilson	915
Alternative Container Design for Sage Establishment	T.W. Meikle and D.T. Booth	810
Area A Highwall Final Reclamation Project	R. Montgomery	811
Mine and Tailings Reclamation at Bear Creek Uranium: A Success Story	E.Y. Scott	1111
Using Topsoil as a Microbial Inoculant	J. Inkret, B. Jensen, and D. Richmond	474
Reclamation of a Sandstone and Clay Quarry With No Topsoil: Use of Filter Fines as Growth Medium	D.L. Buckner and L. Riedel	94
The Use of a Modified Snowcat for Steep Slope and Riparian Revegetation	T.C. Smith	1204
Heap Leach Pad Reclamation at the Goldstrike Mine, Nevada - A Unique Case Study (Interim Progress)	S.R. Viert and R.A. Espell	1349
Creating a Diverse and Erosionally Stable Habitat at La Plata Mine, Northwestern New Mexico	T.C. Ramsey, B.A. Buchanan, and N. Bugosh	1040

## Revegetation

Meaningful Measurement of Revegetation Diversity	R.A. Prodggers	1005
Is There a Characteristic Flora of Appalachian pre-SMCRA Surface Mines?	G.L. Wade and R.L. Thompson	1381
Thirty Years of Reclamation Research in the Alpine and Subalpine Regions in Alberta, Canada	T.M. Macyk	680
Lessons of Steep-Slope Revegetation from the Golden Sunlight Mine, Montana	R.A. Prodggers	992
Initial Results of Native Species Establishment on Highway Corridors in West Virginia	J. Skousen and R. Fortney	1172

## Revegetation (Continued)

Native Mycorrhizal Fungi With Aspen on Smelter-Impacted Sites in the Northern Rocky Mountains: Occurrence and Potential Use in Reclamation	C.L. Cripps	193
Effects of Arbuscular Mycorrhizae on Native Plants Grown in Mine Tailings	O.S. Moynahan, S.R. Jennings, and C.A. Zabinski	815
New Native Pre-Varietal Germplasm Releases for the Northern Great Plains and Intermountain Region	M. Majerus	733
Evaluation of Topsoil Depth Effects on Various Plant Parameters Within a Reclaimed Area in Northeastern Wyoming	B.K. Schladweiler, G.F. Vance, and R. Haroian	1086
Rising Ecoregion Myths in Federal Revegetation Policy	R. Dunne	265

## Tailings

Contaminant Migration From Acidic-Metalliferous Tailings into an In-Situ Lime Amended Root Zone During a Seven Year Period	D.J. Dollhopf and J.D. Goering	254
Revegetation of Mine Tailings Through the Use of Biosolid Amendment	I.L. Pepper, S.A. Bengson, P.R. Rao, and K.L. Josephson	961
Biosolids Remediation of a Base Metals Mining Site	M.D. Sprenger, H. Compton, A. Maxemchuk, S. Brown, and M. Zimmerman	1205
Revegetation of Mining Waste Using Organic Soil Amendments and Evaluate the Potential for Creating Attractive Nuisances for Wildlife	D. Byrne-Kelly, J. Cornish, R. Gordon, and I. Licis	119
Uptake of Arsenic By Native Plants Growing on Gold Tailings in Western Australian Rangelands	J. Costello, H. Lacy, Z. Rengel, D. Jasper, and M. Quaghebeur	174
Selenium Availability and Uptake by Vegetation Growing in the Southeast Idaho Phosphate Mining Region	C.L. Mackowiak and M.C. Amacher	679
Bioavailability of Metals From Spent Heap Leach Ore: A Greenhouse Study	H.M. Hoven and R.E. Long	411
Soil and Vegetation Sampling of Irrigated Meadows in the Upper Arkansas River Valley	D. Wall and D. Hoff	1405

## Wetlands

Characterization of Natural Wetland Soils Receiving Acid Mine Drainage	K.M. Stephens, J.C. Sencindiver, and J.G. Skousen	1240
Mine Drainage Treatment Wetland Substrate Analysis	D. Athay, R.W. Nairn, and K.A. Strevett	2
Water Quality Improvement and Biological Development in Mine Drainage Treatment Wetlands	R.W. Nairn, M.N. Mercer, C.M. Cogburn, D. Athay S.A. Lipe, V.B. Arvidson, M. Sprowls, and K.A. Strevett	880
Ecological Development of Constructed Wetlands Built for Treating Mine Water at Tara Mines, Ireland	A.D. O'Sullivan, D.A. Murray, and M.L. Otte	945
Native versus Active Revegetation on Abandoned Mine Lands in High Elevation Wetlands	L.J. Olsen and C.A. Zabinski	917
Subsidence Wetlands: An Assessment of Values	J.R. Nawrot, L. Kirk, and E. Elliott-Smith	882

## Wetlands (Continued)

The Bunker Hill Hillides: Site History and Planning for Early Successional Restoration on the Nation's Largest Superfund Site	T.A. White, D.L. Mengel, and C.L. Grandinetti	1451
Critical Unsaturated Soil Properties for Soil Covers	R.B. Valceschini and S.A. Morrow	1304
The Need for Two-Dimensional Coupled Soil-Atmosphere Numerical Modeling for Mine Waste Cover System Design	D. Christensen and M. O'Kane	916
OSM Service Shares Technology Nationwide	L. Hamm, K. Bohnenstiehl, and B. Clark, Jr.	311
Identification and Characterization of Mining Waste Using Landsat Thematic Mapper Imagery, Cherokee County, Kansas	G.S. Vandeberg	1329
Use of the New Mexico Mines Database in Reclamation Studies	V.T. McLemore, J.S. Raugust, G.K. Hoffman, M. Wilks, P. Johnson, C.B. Krueger, and G.R. Jones	795

## Geochemistry

Use of Stable Isotopes to Examine Metal Attenuation and Release Processes in a Fluvial Tailings Deposit	K.S. Smith, J.F. Ranville, P.J. Lamothe, and B.P. Jackson	1186
ElectroChemical Remediation Technologies for Metals Remediation in Soil, Sediment and Ground Water, Presentation of Case Histories	W.A. McIlvride, F. Doering, N. Doering, D.G. Hill, and J. Iovenitti	475
Trace-Metal Sources and Their Release From Mine Wastes: Examples From Humidity Cell Tests of Hard-Rock Mine Waste and From Warrior Basin Coal	S.F. Diehl, K.S. Smith, G.A. Desborough, W.W. White, III, K.A. Lapakko, M.B. Goldhaber, and D.L.Fey	232
Recent Changes in the Geochemistry of the Reclaimed Porcupine Creek Alluvial Valley Floor, North Antelope/Rochelle Mine Campbell County, Wyoming	P.A. Murphree	861
Acid Sulfate Wetlands in the NSW Coast, Australia: Chemical Characteristics and Their Implications for Environmental Remediation	C. Lin	640
Coal Bed Methane Discharge Water Interaction With Stream Channel Sediment in the Powder River Basin, Wyoming	M. Patz, K.J. Reddy, and Q.D. Skinner	1041

## Success Standards and Bond Release

Mining Legacy Impacts on Bond Release	G. Passini and J. Stender	1239
Assessing the Feasibility of Developing Technical Standards to Evaluate Revegetation Success at Coal Mines in the Southern Powder River Basin of Wyoming	R.B. Vincent and R.N. Hoy	1350
The Bunker Hill Hillides: A Case Study in the Use of Adaptive Management in Early Successional Restoration on the Nation's Largest Superfund Site	T.A. White, C.L. Grandinetti, S.D. Miller, T.B. Hill, D.L. Mengel, and S.M. Waechter	1472
Reclamation and Bond Release at the Carbon No. 2 Mine in New Mexico: A Nationally Recognized Success	D.L. Clark, F.J. Mraz, and D.M. Thomas	148

## Success Standards and Bond Release (Continued)

Lessons Learned in Montana - A Dispatch From the Front Lines	W.D. McCullough	792
Developmental Ecology - Ecosystem Ontogeny and Bond Release	D.L. Buckner	95

**Author index begins on the next page.**

<b>FIRST AUTHOR</b>	<b>PAPER TITLE</b>	<b>PAGE</b>
