- It is hard to assess if you can earn enough to feed your family
- Traditional perception about the forestry profession
- less money allocated in forestry sector esp. in developing countries
- hard work
- stereotypes
- threats to life of foresters caused by illegal loggers/politicians
- Limit employment
- Lack of knowledge
- They don't know what it's about
- Outdated perception
- "dangerous" forest areas
- outdated perceptions
- It is not prestigious
- Work in remote area
- perception of forestry career outlook
- education government policies focus in other sector
- They are not aware about the opportunities

LET ME SHARE WHAT I HAVE SEEN

LET'S DISCUSS ON HOW CAN WE DO THIS IN NEPAL OR THAT IN CANADA

Tips and Tricks

- *Explore, where you are*
- *Talk to people who are different than you*
- *Check for your blindspots*
- *Know your time to change the table*
- *Share your ideas, you never know where the next opportunity is*
